Last Updated: Jan 2008  
CLAY04

**Duration:**

1 Full Day

**Who should attend:**

Ideal for a person looking at creating their own stop motion animation film. This workshop will teach you the techniques to create your very own stop motion animation film. At the conclusion of this course participants should be able to understand how the software package works to build a stop motion film and what resources are required to build one. It is ideal for people who work with students or have an interest in areas where innovative presenting of information is important with the integration of ICT's into the teaching curriculum.

**Course Pre-requisites:**

Participants should be familiar with working in a Windows environment and have a general computer working knowledge.

**Related Courses:**

Why not extend on what you have learned in this course, and gain the skills needed to unleash the full power of other products and applications. Envisage Training's basic, intermediate, and advanced courses will provide you with the training needed to give you every advantage.
