DRMW01

Duration:

1 Full Day

Who should attend:

Ideal for a person with limited knowledge of Dreamweaver and web site creation and seeking to become familiar with the basics and more innovative areas of the application. At the conclusion of this course participants should be able to understand how to create a website or digital presentation using Dreamweaver with the capacity to apply this knowledge in their personal and professional lives. It is ideal for people who work in areas where effective presentation of information is important.

Course Pre-requisites:

Participants should be familiar with working in a Windows environment but this is not essential.

Related Courses:

Why not extend on what you have learned in this course, and gain the skills needed to unleash the full power of the Adobe & Microsoft products. Envisage Training's basic, intermediate, and advanced courses will provide you with the training needed to give you every advantage.

- Adobe Dreamweaver (Intermediate)
- Microsoft Office (Access, Excel, Outlook, PowerPoint, Word)

Topics Covered:

Use Dreamweaver to learn how to make your school or company website a rich learning portal and effectively integrate technology into your everyday practices. Learn also how to use Fireworks to enhance your graphics.
