Course Details:

Duration: 1 Full Day

Who should attend?

The skills and knowledge acquired in Adobe Illustrator are sufficient to be able to use and operate the software at an efficient level.

Course Pre-requisites:

Before taking this course, students should be familiar with the basic functions of their computer's operating system such as creating folders, launching programs, and working with windows. You should also have basic Windows application skills, such as copying and pasting objects, formatting text, saving files, and so on. Familiarity with basic design terminology, such as palette, color mode, shapes, text, and paths, is highly recommended.

Course Outcomes:

After completing this course, students will know how to:

- get acquainted with the Adobe® Illustrator® application.
- create shapes in a document.
- create custom paths.
- enter text in an Illustrator document.
- enhance documents.
- proof documents to make them more accurate.
- save images for web and print.
